

Employee mobile devices selection: 3 steps to follow

1 Consider an enterprise-grade cloud-based communications solution

Allowing your teams to collaborate via mobile devices

RECEPTION
HOUSE CLEANING

MOBILE BORDERLESS CONNECTED

REAL-TIME TEAM COLLABORATION

MULTICHANNEL MULTIDEVICE

SEASONAL EMPLOYEES
MANAGERS

2 Make the best of legacy and Wi-Fi technologies

DECT or WLAN

DECT

OR

WLAN

Wireless LAN hard to deploy in a historical building?
The DECT technology handsets offer your employees high quality voice services on the move

Your hotel has a wireless LAN infrastructure?
You can decrease the costs of cabling and outlets by leveraging it for voice and data applications!

3 Select your devices based on employee profiles

STANDARD HANDSET OR RUGGEDIZED HANDSET

Employees who spend most of their time inside the hotel
Free them from their desks and allow them to be available for guests everywhere with full telephony features.

Employees in in potentially dangerous situations
Allow them to communicate everywhere on the property and ensure their safety with the isolated worker protection features (alarm, man down, no movement and shock detection)
